3. <u>Streetscape Phase 2 – Rejection of Bids, Reduction of Scope and Permission to Advertise</u>

Public Works Director Bernie Schroeder presented this item. She said all 3 of the bids received were over the estimated cost. She said she would like to modify the project, narrow the scope and re-advertise the project immediately. She said the foundation and major cost of this project is to get the overhead lines removed from the area. She said the smaller, more esthetic items could be done at a later time.

Authority Member Hanley asked why the contract was not awarded to the low bidder with a reduced scope of work.

Bernie Schroeder said there was a greater legal risk to try to negotiate after the bid opening then to reject all bids and re-advertise with a much more scaled down project.

City Attorney Michael Colantuono said, on this project, the bid specifics included evaluating the low bidder based on unit prices and the unit price will change when the scope of the project is reduced.

Bernie Schroeder said the target date is to have this project redesigned by April 1st. She said they will advertise during the first part of April and bring the project back to Council in April.

By **MOTION**:

- 1. Reject all three bids submitted for the Auburn Streetscape Phase 2 Project.
- Request staff to work with the consultant to reduce the scope of the project to reflect AUDA budget constraints.
- Grant the Public Works Director permission to re-advertize the reduced scope design for Auburn Streetscape Phase 2 for construction.

Streetscape Phase 2 Project - Award

The Issue

Shall the AUDA award the Auburn Streetscape Phase 2 Project to the lowest responsive bidder?

Conclusion and Recommendation

Staff recommends that the Auburn Urban Development Authority, BY RESOLUTION, authorize the Director of Public Works to execute a construction contract with Hansen Brothers Enterprises for the Auburn Streetscape Phase 2 in an amount not to exceed \$1,023,705.10.

Background

At the March 28, 2011 meeting, the Auburn UDA rejected all bids for Streetscape Phase 2, directed staff to reduce the project scope and authorized permission to advertise the project again. The reduced project scope included all undergrounding and utility replacement, streetlights, curb, gutter and sidewalk placement from Joe Elder Bus Terminal to just past Pine Street. Additive alternates include asphalt paving overlay, addition of color to the sidewalk, decorative treatment of existing signal poles, irrigation and planting. PCWA is also replacing their waterline during construction. Their portion of the project is approximately \$90,000.

The bid opening was on April 14, 2011 and the City received four bids. The bidders are as follows:

- 1. Hansen Brothers Enterprises of Grass Valley with a base bid of \$818,096.00 and a total bid of \$930,641.00.
- 2. Cook Engineering of Rancho Cordova with a base bid of \$860,307.95 and a total bid of \$986,506.65.
- 3. Gabe Mendez of Newcastle with a base bid of \$869,876.55 and a total bid of 1,000,285.80.
- 4. Westcon Construction of Newcastle with a base bid of \$919,180.75 and a total bid of \$1,056,272.75.

All of the bids have been reviewed and Hansen Brothers Enterprises is considered the lowest responsible bidder.

Alternatives Available to Authority; Implications of Alternatives

Given the unstable environment surrounding redevelopment funding the Streetscape Phase 2 Project was advertised with a base bid with 6 additive alternatives to allow the Authority flexibility with awarding the project. The base bid includes items essential to the utility undergrounding and sidewalk improvements and the add alternates are items more suited to being phased in at a future date if necessary as funding is secured. Specifically, add alternates include colored concrete, landscaping and final paving (refer to Bid Summary). With this flexibility the project can be awarded with any combination of the alternates to the base bid.

The Attached Exhibit A - AUDA Project Lists includes items that have been authorized and those being considered by the AUDA at this time. Significant projects such as the reconstruction of a paved area owned by the Procissi Family in Old Town into a parking lot with street lights and new pavement has been estimated at approximately \$50,000. There has also been considerable discussion about converting the Central Square street lighting into a softer light which has been estimated at \$35,000.

Currently, there is approximately \$1,826,598.00 in AUDA funds designated for projects. Previously authorized redevelopment projects together with those being considered including the award of the entire Streetscape Project 2 (with all six add alternates) will produce an approximate \$18,000 short fall in funding. In order to mitigate this short fall, the Authority could consider the following options:

- Move forward with the Procissi Parking Lot in Old Town and omit the landscaping portion
 of Streetscape (add alternate #6). This project would be brought back to the Authority for
 final action.
- Move forward with the Procissi Parking Lot Project and omit the Central Square streetlight conversion.

Alternative Options:

- 1. Accept Staff Recommendation
- 2. Amend Staff Recommendation Award Streetscape Phase 2 Project with base bid plus Alternatives 1 5 for a total of \$963,927.80
- 3. Consider other award options and base bid combinations
- Take no action

Note: If this project is awarded utilizing the base bid with different additive alternates combination, the Resolution shall be modified to reflect that Authority directive.

Fiscal Impact

The contractor's base bid for this project was \$818,096.00 with a total bid of \$930,641.00 (including all additive alternates); however, pursuant to Resolution 92-50, the Auburn Urban Development Authority shall award capital projects based on the lowest responsible bidder plus a 10% contingency. Therefore, the total award amount including the contingency shall not exceed \$1,023,705.10. Funding for this project is out of the AUDA budget. The engineer's estimate of the cost of construction was \$994,630.

Additional Information

If awarded the construction is scheduled to begin May 18th, 2010 with substantial completion in Fall of 2010.
